MASHAV and WFP Sign MOU for Cooperation in Armenia

A Memorandum of Understanding was signed in December 2010 between the United Nations World Food Program (WFP), and MASHAV to cooperate in Armenia's School Feeding Project. Participating in the project is also the Russian Foreign Aid Agency, marking MASHAV's first ever cooperation with the agency. The School Feeding project will provide a nutritionally balanced meal for 50,000 primary schoolchildren in six of the country's most vulnerable and food-insecure regions. Within this framework, MASHAV will provide funding for professional capacity building programs in the areas of education, health and nutrition to assist in the development of a sustainable school feeding program.

Agribusiness Consulting Center
MASHAV operates a Consulting Center in Bishkek, Kyrgyzstan. The center assists farmers interested in planning, financing and implementing improved systems and support former MASHAV demonstration farms in the region. Application of advanced technologies has resulted in diversification of crops and higher yields for local farmers. Agribusiness consultation services are given in close cooperation with the Ministry of Agriculture and other donors and organizations that provide agricultural credits to Kyrgyz farmers.

MASHAV-UNDP Cooperation for Livestock Sector Upgrading

Livestock plays an important role in the agricultural sector of the economy of Uzbekistan. Following an in-depth analysis of the livestock sector at a national level, and within the framework of Uzbekistan's National Project on Sustainable Development of the Livestock Sector, a Cooperation Agreement was signed between the UNDP and MASHAV to strengthen local capacity for sustainable livestock development in the country. The agreement includes transfer of Israeli know-how and new technologies, professional training programs, and the provision of high quality genetic materials and equipment for artificial insemination. The project is being implemented in 5 dairy farms in two areas west of Tashkent. This unique project is a model of successful partnership between Uzbekistan, Israel and the UNDP, to contribute to a sustainable development of the livestock sector in Uzbekistan, and the further enhancement of its people's livelihood.
