

III—GENERAL ASSEMBLY—OVERALL VOTES

Ninety-eight Plenary votes were recorded at the 58th session of the UN General Assembly (UNGA). Of these 98 votes, 76 pertained to resolutions as a whole, 17 to separate paragraphs, one to a motion, and four to decisions. Of the total 98 votes, the United States voted Yes 17 times and No 68 times; it abstained on 13 votes.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 85 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 85 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed “Voting Coincidence (Including Consensus)” presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see Introduction: Format and Methodology).

Section III contains five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other groupings, again in rank order; (4) a comparison of 2003 voting coincidence percentages with those of the preceding five years; and (5) a side-by-side comparison of each country’s voting coincidence with the United States and a calculation of the amount of bilateral U.S. assistance provided to that country in fiscal year 2003 (from the Foreign Operations, Export Financing, Related Programs Act and P.L. 480 funds).

Countries with asterisks in the Voting Coincidence columns did not vote during the session. Under Article 19 of the UN Charter, Iraq and Liberia did not vote because their financial contributions were in arrears. The Palestinian Authority is not a UN member and does not have voting privileges. The United States again voted No in Plenary more often than any other UN member (28 percent of U.S. No votes coincided with those of three or fewer countries), voting No alone on 10 occasions, which was slightly higher than last year, but far less than the 20 such incidents in 1989. The United States voted No with only one other country five times (twice with Israel, and once each with India, the Marshall Islands, and the United Kingdom). On several other occasions, the United States was joined in a No vote by Israel and one or more other countries (usually Micronesia, the United Kingdom, Marshall Islands, France, Palau, or Russia). U.S. votes in isolation were on resolutions concerning the Comprehensive Test Ban Treaty, the right to food, access to

Voting Practices in the United Nations – 2003

medication, rights of the child, environmental norms in arms control, and unilateral economic measures as a means of coercion. The United States also voted in isolation on paragraph votes on the implementation of the UN Convention to Combat Desertification in Africa, protection of global climate, and safety of humanitarian personnel. The United States alone voted No on a decision linking disarmament to development. Votes with Israel were on issues regarding the Middle East, but also included measures on arms control, racism, development, decolonization, and the U.S. embargo of Cuba, as well as on procedural votes. The United Kingdom voted with the United States on resolutions on decolonization and arms control. France and Russia voted with the United States on two resolutions concerning nuclear weapons.
