

Is the State at an impasse?

There is a solution:

Aliya, Construction, Emigration *and Peace*

The Platform of Otzma Yehudit

Rethinking our path

Stop the Occupation!

The State of Israel is being conquered - step by step;
and we are **stepping back** - and **losing it!**

- **Arson**
- **Incitement**
- **Attacks**
- **Negev land thefts**
- **Agricultural crime**
- **Hooliganism in places of entertainment**
- **Savagery on the roads**
- **Illegal construction**
- **Enlistment in ISIS**
- **Education for the destruction of the State**
- **The spread of the Islamic movement**
- **Creation of a culture encouraging terror**
- **Traitors among MKs**
- **Support for terrorists**
- **Ear-splitting calls of the muezzin**
- **Tax evasion**
- **Occupation of the Galilee**
- **"Protection" money**
- **Hatred**
- **Gunfire**

My Homeland

The demographic problem and Israeli Arab nationalism are dragging the government into **efforts to buy the Arabs' loyalty** with offers of excessive benefits:

- ✓ Preferential treatment in workplaces
- ✓ Generous National Insurance benefits
- ✓ Lower University entrance requirements
- ✓ Disregard of illegal construction
- ✓ Leniency regarding support for the destruction of the State of Israel
- ✓ Surrender to terror and threats on the Temple Mount

And what are we getting in return???

LET'S STOP THE WHITEWASHING OF WORDS!

The war of survival of the Jewish People in their land is being **neutralized** by the use of false and misleading terminology:

Racism - Freedom of speech - Occupation - Democracy and the rest of the lies used to promote victory for the enemy.

Many in Israel choose to sleep on the job of preserving the Jewish State.

But ignoring the problems leaves our children only **blood, fire and destruction.**

Taking our heads out of the sand

We of Otzma Yehudit (Jewish Strength) recognize the demographic problem and intend to tackle head on, with determination and power, the disaster that lies ahead. We commit ourselves to bring **TRUE PEACE** to our children. To cope with the challenges, not ignore them. To **beat** the enemy, not to surrender to them. To fight for a Jewish State **and to win**. This is the only state we have!

Let us be clear:

To wage war on the enemy is not **racism**, there is no **freedom of speech** to incite against the State and IDF soldiers, settling the Land of Israel is not **occupation**, and we will not allow our State to be destroyed in the name of **democracy**.

The Three-Stage Plan for Peace

We of Otzma Yehudit intend to return to the two main Zionist values: **Aliya and Building the Land**, the focal point of the activity of the Jewish People who have returned, and so hold onto our country. At the same time, we will work towards the **emigration** of the enemies of the State of Israel to their respective lands, including both Arab and Western countries.

Summary of the Program:

1. Aliya

More than 10 million Jews have still not realized the Zionist dream of the return of the Jewish People to their land, most of those from Western countries, Europe and the USA. We intend to prod the Jews of the Exile into linking their fate to the Jewish People in their land, by means of two programs stretching over 5 years:

Aliya of dispersed Jewry will save them from assimilation and us from the demographic threat, which will be permanently solved all over the country on both sides of the Green Line.

Encouragement of aliya: In order to create the reality of massive aliya, the Israeli government will form a cabinet for Aliya Affairs. The cabinet will include the Ministers of Housing, Economic Affairs and Education, and will provide a generous response to the needs of new olim - in housing, employment and education.

To make it easier to decide to make aliya, we will offer communal absorption to entire communities who will immigrate here with all their institutions, functionaries of these institutions and their businesses. We will enable the formation of educational institutions that will teach people in their native

language, along with reinforcement in the Hebrew language. We will ease up on recognition of professional licenses and degrees via a smoother and shorter route, in order to open up employment possibilities. Affirmative action in employment will be given to new olim (after decades of being given to Arabs).

The resources: We will set aside half of the gas royalties and unanticipated sources of income (such as from "MobilEye"). The Jewish National Fund and the Jewish Agency will focus on raising funds from Jews around the world to go towards the national project to save the Jewish State.

The Israeli public will be encouraged to invest in "*Aliya Partners*" - a loan of several years' duration given by citizens of the State, in return for which they will receive Israeli bonds.

Aliya from prosperous countries will bring in huge investment that will grease the wheels of the economy and bear fruit in enrichment of the public coffers and creation of places of employment.

2. Construction

In addition to the aliya momentum, we will bring about a new wave of construction which will also benefit young couples.

Eastern Gush Dan: Our plans are to develop the area by building a city for discharged soldiers and new olim between Ariel and Rosh HaAyin. On these vast expanses we will build tens of thousands of housing units, industrial and hi-tech areas and railroad tracks that will link up to the national railway; all of these will strengthen our hold on western Samaria, Gush Dan's only land reserve.

The Galilee: The Galilee is being occupied, Jewish cities such as Upper Nazareth, Acre and Afula are giving in to the demographic conquest. We will work to change the equation via construction of a new city in the Galilee and expansion of the municipal boundaries of Jewish cities, as well as via the building of neighborhoods for communal absorption and by granting affirmative action for all employment opportunities to new olim and discharged soldiers in particular, and to all those loyal to the Jewish People in general.

Judea and Samaria: Otzma Yehudit (Jewish Strength) will erase the illusion of the "green line" and advance the cause of settlement of all of Judea and Samaria in order to strengthen our hold on all of the territory of the Land of Israel.

The Negev: The Negev is the largest land reserve of the State of Israel, which is currently being overtaken by the Beduin sector with no response from the State. Development of the military city-base and building additional such cities like it, will open up the Negev via the creation of sources of employment and encouragement of vibrant settlement by young people who are faithful to the State and by new immigrants tying their future to building the Negev, its development and return to the Jewish People.

3. Emigration

We of **Otzma Yehudit (Jewish Strength)** are composing a detailed plan that will ensure a Jewish majority and a loyal civilian population, via emigration, transfer of the enemy, an exchange of populations and any other way that will help the enemy leave our country.

An enemy is whoever acts on, assists or supports an attack on the State of Israel, its security or the Jews in it, as well as all those who act against the values of the Jewish State, its national anthem or its symbols, regardless of their religion, race, gender or color of ID card. This is in accordance with the Jewish principle: Whoever comes to kill you, at the very least - rise up and remove him.

We are not talking about a Milosevic-style expulsion from Yugoslavia, or about what our enemies in the Middle East usually do, and not even about a Gush Katif-style ethnic cleansing.

Our intent is to put this essential and vital project at the top of the State of Israel's priority list, and to coordinate all efforts in which all operational arms of the State will participate - The Mossad, the Shabac, the police, the Jewish Agency, the Jewish National Fund. The Prime Minister's office will reactivate the Emigration Department, which had previously been in operation for many years. This department will coordinate the national effort to encourage emigration and to identify countries willing to absorb the emigres.

Sovereignty: The State of Israel will be defined as a Jewish State, from the sea to the Jordan River. Sovereignty will also apply to and include Judea and Samaria and the holy and historic sites, chief among them the Temple Mount, will be returned to their Jewish owners. Anyone who acts to support the establishment of a foreign entity within this area, will be considered as one who is attacking the State's security. Any terrorist activity, or show of support for terror, will lead to the removal of citizenship as well as immediate expulsion from the country.

Law and Order: Anyone not meeting his obligations - National Service, payment of electricity, water, arnona (city tax), other taxes and Value Added Tax (VAT), and anyone building illegally and seizing land for this purpose, will be handled with the full force of the law by a special police force whose task will be to eliminate the problem.

Likewise, crime in the Arab sector - which today stands at three times their relative size and harms them, too - will be eradicated.

Cities and Municipal Councils: We will put an end to free gifts: Municipal aid will be contingent on the conduct of the various authorities. Um-El-Fahm will not receive more aid than Dimona.

Priorities: Priority in academia and workplaces for the enemy who does not serve in the IDF, over veterans of combat units - will stop immediately.

Encouragement of emigration: The various representations of the State all over the world will work on friends of Israel to assist those interested in emigrating: Visas, work permits, academic studies and any other way to help them acclimate abroad.

Land: The Jewish National Fund, with financial assistance from the Jewish world, will concentrate its efforts on redeeming the land from our enemies, with an emphasis on buying up the homes of those interested in emigrating, and at the same time, imposing a ban on purchase of real estate by hostile elements.

This is the way to peace.

Peace that does not include giving up the State, peace that does not give our enemies the hope of destroying us. Peace that comes from Jewish Strength and Zionist values. After years of degeneration and disintegration, this program will breathe a new, refreshing spirit into the Jewish People all over the Exile, encourage young people to be part of this mighty enterprise, and will ensure a Jewish State for our children and grandchildren, too.

If, G-d forbid, we turn our backs on this program and continue with this "ostrich" policy - By our own hand we will sentence our beloved Jewish State to death!

By choosing Otzma Yehudit (Jewish Strength)

Let us take our fate into our own hands and bequeath our children a State of aliya and construction, emigration and peace.

It's not only possible - it is absolutely essential!
