

II - GENERAL ASSEMBLY — OVERALL VOTES

There were 83 recorded plenary votes at the 55th session of the UN General Assembly (UNGA), including one at the special emergency session which has been included in the tabulations in this report. Of these 83 votes, 67 were on resolutions as a whole, 15 on separate paragraphs, and 1 on a decision. Of these 83 votes, the United States voted Yes 25 times and No 40 times; it abstained on 17 votes and did not participate on 1.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 65 instances the United States voted either Yes or No in plenary. Columns show the number of times the United States and the country listed cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times the country abstained and was absent for these 65 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed “Voting Coincidence (Including Consensus)” presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see the methodology section in the Introduction).

Section II has five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other important groups, again in rank order; (4) a comparison of 2000 voting coincidence percentages with those of the preceding five years; and (5) a side-by-side comparison of each country’s voting coincidence with the United States and our best calculation of the amount of bilateral U.S. assistance provided to that country in fiscal year 2000 from the Foreign Operations, Export Financing, and Related Programs Act, 2000.

Countries with asterisks in the Voting Coincidence columns did not vote during the session. Under Article 19 of the UN Charter, Central African Republic, Guinea-Bissau, Iraq, Liberia, Niger, Seychelles, and Somalia did not vote at the 55th UNGA because their financial contributions were in arrears. Some countries were permitted to vote despite their arrears in financial contributions on the grounds that failure to pay was attributable to conditions beyond their control. In 1992, the Federal Republic of Yugoslavia was denied permission to participate further in UNGA proceedings until it applied for and was granted readmission; it did so in October and subsequently voted in the Assembly session.

The United States again voted No in plenary more often than any other UN member (29 percent of U.S. No votes were with three or fewer countries) and voted No alone 1 time (fewer than in most other recent years, and far fewer than the 20 times in 1989). The United States voted with only one other country 18 times (15 times with Israel and 3 times with the United Kingdom). On several other occasions the United States was joined in a No vote by Israel and/or one or two other countries (Marshall Islands, Micronesia, France, Monaco, or Russia). The U.S. vote in isolation was on a perennial Cuba-sponsored resolution on travel. Votes with Israel were on issues regarding the Middle East. Those with the United Kingdom and France were on decolonization and arms control issues.

Voting Practices in the United Nations - 2000

All Countries (Alphabetical)
