

### **III - GENERAL ASSEMBLY - OVERALL VOTES**

This section contains tables of the 93 Plenary votes that were recorded at the 62<sup>nd</sup> session of the UN General Assembly (UNGA). Of these 93 votes, 76 pertained to resolutions as a whole, 14 to separate paragraphs, two to decisions, and one to a no-action motion. Of the total 93 votes, the United States voted Yes 10 times and No 72 times; it abstained on 11 votes.

#### **COMPARISON WITH U.S. VOTE**

The tables that follow are based on the 82 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 82 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed "Voting Coincidence (Including Consensus)" presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see Introduction: Format and Methodology).

Section III contains five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other groupings, again in rank order; (4) a comparison of 2007 voting coincidence rates with those of the preceding five years; and (5) a side-by-side comparison of each country's voting coincidence with the United States, the amount of bilateral U.S. assistance provided to that country in fiscal year 2007 (from the Foreign Operations, Export Financing, Related Programs Act and P.L. 480 funds), and that country's assessment percentage of the UN budget for 2007. General Assembly Resolution 61/237 (2006) set out the scale of assessments for the period 2007-2009, maintaining the same methodology used for the period 2004-2006 and, based on intensive U.S. diplomatic efforts, maintaining the 22 percent ceiling rate, established in December 2000, at which the United States is assessed.

All members voted during the session. The United States again voted No in Plenary more often than any other UN member (39 percent of U.S. No votes coincided with those of three or fewer countries), voting No alone on 18 occasions, the same number as last year. The United States voted No with only one other country six times (twice each with Israel and Japan, once each with the Marshall Islands and Syria). On four occasions, the United States was joined in a No vote by Israel and one or two other countries (Palau, the Marshall Islands, India, or Pakistan).

The United States voted in isolation on resolutions including those concerning developments in information security; prevention of an arms race

*Voting Practices in the United Nations—2007*

in outer space; environmental norms in arms control; a special session on disarmament; a South East Asia nuclear weapon free zone; the illicit trade in small arms; rights of the child; the right to food; questions related to the 2008-2009 program budget; and the relationship between disarmament and development.

Israel voted with the United States on resolutions regarding unilateral economic measures and the effects of economic activities on non-self-governing territories. The Marshall Islands voted with the United States on a resolution regarding racism. Japan voted with the United States on two paragraph votes, one on climate change and the other on desertification. Syria voted with the United States on a paragraph vote related to discrimination against women.
