III - GENERAL ASSEMBLY - OVERALL VOTES

This section contains tables of the 97 Plenary votes that were recorded at the 63rd session of the UN General Assembly (UNGA). Of these 97 votes, 74 pertained to resolutions as a whole, 19 to separate paragraphs, two to decisions, one amendment to a draft resolution, and one to a no-action motion. Of the total 97 votes, the United States voted Yes 17 times and No 71 times; it abstained on nine votes.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 88 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 88 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed “Voting Coincidence (Including Consensus)” presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see Introduction: Format and Methodology).

Section III contains five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in rank order by voting coincidence percentage; (3) lists of countries by other groupings, again in rank order; (4) a comparison of 2008 voting coincidence rates with those of the preceding five years; and (5) a side-by-side comparison of each country’s voting coincidence with the United States, the estimated amount of bilateral U.S. assistance provided to that country in fiscal year 2008 (from the Foreign Operations, Export Financing, Related Programs Act and P.L. 480 funds), and that country’s assessed percentage of the UN budget for 2008. General Assembly Resolution 61/237 (2006) set out the scale of assessments for the period 2007-2009, maintaining the same methodology used for the period 2004-2006 and, based on intensive U.S. diplomatic efforts, maintaining the 22 percent ceiling rate, established in December 2000, at which the United States is assessed.

All members voted during the session. The United States again voted No in Plenary more often than any other UN member (44 percent of U.S. No votes coincided with those of three or fewer countries), voting No alone on 16 occasions, two fewer than last year and the year before. The United States twice voted No with only one other country (once with Israel and once with Micronesia). On seven occasions, the United States was joined in a No vote by Israel and one or two other countries (Democratic Peoples Republic of Korea, France, India, the Marshall Islands, Pakistan, Palau, and United Kingdom).
The United States voted in isolation on resolutions relating to: the Comprehensive Nuclear Test Ban Treaty; the report of the Conference on Disarmament; international security developments in information and telecommunication; international arrangements to assure non-nuclear-weapons states against threat or use of nuclear weapons; preventing an arms race in outer space; all aspects of illicit trade in small arms and light weapons; the right to food; a new international economic order; common international standards to import, export, and transfer conventional arms for an arms trade treaty; and rights of children.

Israel voted with the United States on resolutions regarding: economic activities affecting non-self-governing territories; disseminating information on decolonization; implementing the Declaration Granting Independence to Colonial Countries and Peoples; decreasing operational readiness of nuclear weapons systems; establishing a nuclear-weapon-free zone in Central Asia; nuclear-weapon-free southern hemisphere and adjacent areas; toward the total elimination of nuclear weapons; effects of use of arms and ammunition containing depleted uranium; and respecting the right of universal freedom of travel and the vital importance of family reunification.
