

III - GENERAL ASSEMBLY - OVERALL VOTES

This section contains tables of the 84 Plenary votes that were recorded at the 64th session of the UN General Assembly (UNGA). Of the total 84 votes, the United States voted Yes 23 times and No 48 times; it abstained on 11 votes, and was absent for two.

COMPARISON WITH U.S. VOTE

The tables that follow are based on the 71 instances the United States voted either Yes or No in Plenary. Columns show the number of times the United States and the pertinent country cast identical (Yes/Yes or No/No) and opposite (Yes/No or No/Yes) votes, as well as the number of times a country abstained or was absent for these 71 votes. Voting coincidence percentages are derived by dividing the number of identical votes by the total of identical and opposite votes, the same method used in all previous editions of this report. The column headed "Voting Coincidence (Including Consensus)" presents the percentage of voting coincidence with the United States after including consensus resolutions as additional identical votes. Extent of participation was also factored in (see Introduction: Format and Methodology).

Section III contains five parts: (1) lists of UN member states alphabetically and in rank order by voting coincidence percentage; (2) lists of countries by UN regional group, in alphabetical order; (3) lists of countries by other groupings, again in alphabetical order; and (4) a side-by-side comparison of each country's voting coincidence with the United States, the estimated amount of bilateral U.S. assistance provided to that country in fiscal year 2009 (from the Foreign Operations, Export Financing, Related Programs Act and P.L. 480 funds), and that country's assessed percentage of the UN budget for 2009.

All members voted during the session. The United States voted No in Plenary more often than any other UN member, but voted No in isolation on only one occasion (64/147), 15 fewer times than in 2008.
