Course objectives
In December 2008, Israel reacted to Hezbollah shelling of civilian towns with an attack on Gaza strip. This was the 11th war since the state was established in 1948, 11 wars in 61 years. Wars have marked major milestones in Israeli history. The state was born out of a war, and waves of violence have occurred since the beginning of the Zionist settlement of Palestine at the turn of the 18th century. Yet the Zionist dream was to put an end to the lack of security of Jews suffered for almost two millennia. One hundred years after the creation of that national movement, and in spite of many great achievements, security, peace, and "normalization" for the Jews is still to be desired.

This is an introductory course to the history of modern Israel and it will review that history from the inception of Zionism to the present days. It will start with the foundation of the Zionist movement in Europe, as well as the foundation of Jewish autonomy in Palestine; continue with the creation of an independent state and will pinpoint critical events and major themes of the state's first 60 years, up to the war with Hamas in 2008.

This course aims to give students familiarity with the main characteristics of Israel's history, with the different interpretations and narratives of that history, as well as with issues that pertain to the historiography of this troubled region. A special focus will be put on the actors and forces that dominated the scene.

Methods of Instruction:
The course will be taught through lectures, discussions, students' presentations, guest speakers and films. I encourage you to ask questions and raise issues. We have flexibility in our schedule and can take time to discuss issues you may raise.

Course requirements:
1. Class attendance is mandatory and students are expected to actively participate in class.
2. You should read the material assigned for a date before that class.
3. During each meeting a group of four students will present a portrait of a major Israeli political leader, followed by a class discussion. Within two weeks of the discussion, each student will submit a paper on the topic. (See details in the next page).
4. The final exam (on Wednesday May 6, at 11:20 p.m.) will be a written comprehensive exam covering the course material.

Evaluation Criteria and Percentage of Grade
Stay informed!
We will begin each one of our meetings, time permitting, with a discussion of current events in Israel in historical perspective. Therefore, students are required to stay informed of the latest events and issues. I will gladly receive emails from you before our meetings with requests to deal with any particular topic.

Sources for extensive coverage include: the *New York Times*; Israeli dailies: *Ha’aretz* (leans left) ([www.haaretz.com](http://www.haaretz.com)) and the *Jerusalem Post* (leans right) ([www.jpost.com](http://www.jpost.com)); *Jerusalem Report* (Internet) ([www.jrep.com](http://www.jrep.com)); Jerusalem Media and Communication Center ([www.jmcc.org](http://www.jmcc.org)). Knowledge of current developments, especially events relating to material covered in the course, will influence the participation grade.

The Paper

In each of our meetings a group four students will present a portrait of a major Israeli political leader. This portrait should be based on his/her biography as well as an autobiography and books written by this person. In our first two meetings we will establish the groups and choose the figures. Following the presentation and the discussion in class, each student will present an independent work on that person. It should contain 4-5 pages (up to 1,500 words). The presentations and the papers should describe the leader’s biography, his/her role in Israel's history, main achievements as well as faults, etc. The group should also lead a discussion on a major dilemma that this person represents in Israel's history.

We will further discuss the details of this assignment in our first meeting on Jan. 14.

List of Leaders: (others might be added with my approval)
